Doomgiver
(Sword of Justice)
Symbol: Ring (circle)
(Author Unknown)

It is the least known Sword (it was destroyed without ever have been used 'ere the teller of the story could tell the readers).

The Sword of Justice throws the power of the opponent(s)Ä attack back at them. Acts similar to a *Ring of Spell Turning* (and overpowers any such ring) against spells. Attacks with melee weapons: attacker rolls his attack, if he scores a hit on Doomgiver's wielder, the *attacker* then rolls for the amount of damage he *would* have done, then Doomgiver hits him, causing that much damage.
